**Plan now to attend!**

**Ukiyo-e**

Our David Lerner will provide information about Ukiyo-e, the delightful and beautiful Japanese wood block printing art form.

The method was used to produce art prints, ads, religious books, travel books, sex books, and many other types of printed material.

In Japan, social and political circumstances fostered this art form, which was mass produced from the Middle Ages to modern times. When it reached the West, Asian printing technology set off the European Renaissance. For a variety of technical and social reasons, this technology did not have the same impact in Asia.

Today the Internet is the Information Superhighway. In earlier times, writing and printing caused dramatic social, economic, and political change—as dramatic as the Internet now.

For further information, contact Tom Osbeck at 914-720-1075 or email [programs@wpcug.org](mailto:programs@wpcug.org).

**MEETUP UPDATE**

WPCUG HAS CRACKED THE 58-MEMBER MARK!

But we still need your help. The more members who join, the more “weight” that prospective members place in deciding to visit us and then become members of WPCUG. See the Meetup presentation on the club website. See instructions to join on the Meetup website.

IF YOU HAVEN’T JOINED OUR MEETUP GROUP YET, PLEASE DO SO!

It’s called “**Greater Westchester Personal Tech and Computer Users.**”
