ONLINE PRIVACY

When you are surfing the internet in the comfort of your home or office, it is easy to forget that you are also in a public place. The internet presents many challenges to your privacy from eavesdroppers, hackers, advertisers, and more.

Just as you look out for card skimmers and cover your hand as you enter your PIN at an ATM, there are tools and practices you can use to protect your online privacy. Come learn about the risks and tools for protection.

Director of Transformation and Strategic Operations for the Westchester Library System, Rob Caluori hold master’s degrees in Information Systems and Information Science. He is a librarian, amateur radio operator, technology enthusiast, and unabashed privacy advocate.

THANK YOU

to all who came to help WPC-Renew move to the Hauselt Building at Wartburg. These special members made the move easy and it went smoothly. We are grateful.

GIVE NEEDY KIDS A COMPUTER!

Children are mandated to leave full-time resident programs because of their age and they then lose computer access. Laptops that WPC-Renew volunteers are refurbishing for them need power supplies and batteries. Every kid should have computer access.

GoFundMe contributions can be made [here](#) to support this effort.
