President's Message

Over the past two issues of the newsletter, I have talked about resuming face-to-face General Meetings at Pace University. First I said the first hybrid meeting would be September, then October. That is now unfortunately put on hold. The reason is that we were informed that Pace University has changed its process for renting rooms in the new school year, and even though we were sponsored, they now want to charge us, possibly to the tune of about \$300 per meeting. This is obviously not compatible with our budget so I have asked if they were going to have a non-profit rate and am awaiting an answer. So for now we are investigating other avenues. In the mean time, we will continue to meet online via Zoom as we have done for the past 3.5 years.

At its August 30th meeting, the TechEdConnect Board of Directors authorized a membership incentive from September until the end of the year. Any member in good standing who recruits a new member will get a six-month extension in his/her own membership. Please have the new member mention your name after they have paid their membership, by sending an email to membership@wpcug.org with the subject "New member incentive". May each of us bring one or more member before year's end and enjoy the savings.

Dr. Pierre Darmon

President, **TechEdConnect**SM (formerly Westchester PC Users Group)
PC/Mac Computer Support and Education Consultant

What the Luddites Can Teach Us about AI

(CBS News Image)

Exciting new technology is on the rise, doing the same work that humans can but faster and more cheaply. That's great news for the people rich enough to buy these machines, but it's disrupting the lives and livelihoods of less powerful workers. And some of those workers are ready to fight back.

Robert Oppenheimer in LIFE

(The LIFE Picture Collection/Shutterstock)

Oppenheimer first appeared in LIFE in 1945, the year the first atomic bombs were dropped. The pictures here show Oppenheimer with General Leslie Groves (played by Matt Damon in Nolan's movie), who led the Manhattan Project that developed the bombs, and also addressing reporters who came to New Mexico to see the site of the first atomic bomb detonation.

ose art is a decorative painting or design on the fuselage of an aircraft, usually on the front fuselage.

While begun for practical reasons of identifying friendly units, the practice evolved to express the individuality often constrained by the uniformity of the military, to evoke memories of home and peacetime life, and as a kind of psychological protection against the stresses of war and the probability of death. The appeal, in part, came from nose art not being officially approved, even when the regulations against it were not enforced.[1][2]

Because of its individual and unofficial nature, it is considered folk art. It can also be compared to sophisticated graffiti. In both cases, the artist is often anonymous, and it relies on materials immediately available.[1]

Nose art is largely a military tradition, but civilian airliners operated by the Virgin Group feature "Virgin Girls" on the nose as part of their livery. In a broad sense, the tail art of several airlines such as the Eskimo of Alaska Airlines can be called "nose art", as are the tail markings of present-day U.S. Navy squadrons. 301st Bomb Group B-17F which had its girl-riding-a-bomb on the dorsal fin.[3]

History

Placing personalized decorations on fighting aircraft began with Italian and German pilots. The first recorded example was a sea monster painted on an Italian flying boat in 1913.[citation needed] This was followed by the popular practice of painting a mouth beneath the propeller's spinner begun by German pilots in World War I. What is perhaps the most famous of all nose art, the shark-face insignia later made famous by the First American Volunteer Group (AVG) Flying Tigers, first appeared in World War I on a British Sopwith Dolphin and a German Roland C.II, though often with an effect more comical than menacing.[4][page needed] The cavallino rampante ("prancing horse") of the Italian ace Francesco Baracca was another well-known image.

My First Tattoo

Tattoos are all the rage today but there was time that it wasn't considered Sheik.

Prior to Mayor Giuliano legalizing tattoo parlors in the '90's they had been illegal since 1911. In 1970 or so I came home from college and Mom made me lunch. She was so excited. She had just seen the movie Papillon with Steve McQueen whom she loved. My mother loved handsome strong man type actors. I was named after Gregory Peck. She then told me that she found a tattoo parlor in Islip and that she wanted to get a tattoo of a butterfly or in French Papillion. A homage to Steve McQueen. She said, "Dad said I was crazy so, you're going to take me." I put my mother on the back of my motorcycle and drove her to Islip. The place was quite sketchy, but she was determined. She got a big tattoo on her shoulder. The wife of a prominent corporate executive. She then turned to me and said, "now it's your turn." I said, "I don't want a tattoo." Quickly she gave me the mom look and said, "if I'm getting a fucking tattoo, so are you!". Well, I had been studying medieval history and the Unicorn Tapestries hanging in the Cloister's popped into my head, so, I got a Unicorn tattoo. The legend went that only a virgin can capture the Unicorn, which sounded good to me. So began the accumulation of tattoos which now number about 25.

Years later, I saw a man with a tattoo on his arm identical with my second tattoo. It was a heart with a name through it with a key symbolizing that the person was the key to your heart. So, I said, "I have the same tattoo with my wife's name on the heart." He answered that it was not his wife's name but his daughters." I looked at him, "why not your wife's name?" His quick retort, "daughters are forever, wives are not". And me, 3 wives later . . . ?

Scams

Elon Musk to sue ADL for accusing him, X of antisemitism

(Image Credits: Bryce Durbin / TechCrunch)

In the newest uproar you might have missed, Elon Musk says X, formerly Twitter, will file a defamation lawsuit against the Anti-Defamation League. Musk accused the ADL, an organization that works to combat antisemitism, extremism and bigotry, of falsely accusing him and X of being antisemitic.

Musk also blamed the ADL for X's falling U.S. advertising revenue.

ALL WORKSHOPS ARE ONLINE

TechEdConnectSM has workshops for everyone who uses a computing device. Some workshops have a formal classroom-type approach; others are informal meetings where ideas and problems are discussed. Below is a list of the various workshops and the leaders.

PHOTO & VIDEO EDITING Jim Iscaro

Learn to take pictures off your phone or camera, save them in an organized manner, back them up, and select the best. We then edit them so they look like the picture we wanted to take. We'll use an easy photo editor that is available in Windows and Mac and we will cover apps on Android and iOS devices.

TECHNOLOGY Anthony Tedesco

Meeting starts with discussions on any related area of technology attendees feel interested in. Followed by a presentation on a different technology topic each month.

NAVIGATING WINDOWS (*Alternating months*) Pierre Darmon

Q&A to address questions on Windows, from printing to device drivers, from changing default apps to addressing performance issues, and much more.

THE CURIOUS LION John Moore

What to do if a light does not light. What to do when your hair dryer will not turn on. How to map the circuits in your breaker panel. How to hook up a generator if you don't want to hire an electrician. How a 208-volt circuit differs from a 120-volt circuit. Bring your questions to find answers.

Workshops

UPGRADE & REPAIR Jonathan Hauff

We cover hardware and software. The good, fun, and bad stuff. Sessions feature adding to your PC (cameras, phones, mass storage, backups) and upgrades; error messages; stubborn installations; dreaded “blue screens of death,” conflicts, and buggy programs, virus/spyware/identity issues and how to understand and solve them all!

DIGITAL CAMERAS Allan and Heather Turnbull

Do you want to know about the symbols and buttons on your camera? Do you want to know how to take a decent picture, download your pictures to your computer, and send them by email? Bring your digital camera and manual. We show you how to use it in a relaxed, informal, and hands-on environment.

ALL THINGS MOBILE

A roundtable discussion of Android and Apple devices. Share your phone and tablet experiences, apps, and favorite websites. We’ll learn together. You don’t need a device; we’ll share ours with you. Open to all levels.

OFFICE SUITES George Hauss

Ah, you think you are an expert and don't have to come to George Hauss' workshop? In fact, George has been piling in the tips and tricks that make MS Office, LibreOffice, OpenOffice, and even the Mac Office Suite (iWork) much quicker and easier to use. Bring your own shortcuts to share. Put this workshop on your calendar and learn what you think you already know.

APPLE FOR BEGINNERS (Alternating months) Pierre Darmon

This workshop is geared for beginners. It is conducted as a Q&A for the most part. We cover all things Apple, from the Mac to the iPhone, iPad, Apple Watch, Airtags, and their relationship.

CULTURAL TECHNOLOGY David Lerner

Recent discussions on archaeology, gorgeous stained glass windows, World War II history, ships from the classical age. David Lerner shares his many interests with us and holds our attention throughout his workshop.

EXPLORING SOFTWARE Pierre Darmon

A different topic each month. Topics span from computer security to the paperless office to Chromebooks and printers, just to name a few.

BEGINNER WINDOWS Mark Lindemann

For those new to Windows or who recently bought their first computer, this workshop is for you.

To whom this may Concern,

I thank you dearly for the computer. Now I can complete School Projects on time and correctly.

I will use this computer for my homework, Projects and most likely college study. I don't have to go to the library and worry about running out of time, or my work not saving. I truly thank you, I wish to excel in life with this.

Thank you.

This sweet child in Foster Care received a WPC-Renew computer. The last line could break your heart.

Wonderful Quotes from a Book of Wise Sayings

book may be as great a thing as a battle. Disraeli.

Absence of occupation is not rest; / A mind quite vacant is a mind distressed. Cowper.

A burnt child dreads the fire.

Accidents rule men, not men accidents. Herodotus.

Accuse not Nature; she hath done her part; Do thou thine. Milton.

A countenance more in sorrow than in anger. Hamlet.

A crowd is not company. Bacon.

"Experience is the best teacher," only the school-fees are heavy. Hegel.

xperience to most men is like the stern-lights of a ship, which illumine only the track it has passed. Coleridge.

Falsehood is never so successful as when she baits her hook with truth. Colton.

Fanaticism is a fire which heats the mind indeed, but heats without purifying. Warburton.

Faults are beauties in lover's eyes. Theocritus.

Feather by feather the goose is plucked.

Few are fit to be entrusted with themselves.

Few may play with the devil and win.

ew minds wear out; more rust out. Bovee.

Few things are impossible to diligence and skill. Johnson.

Fine sense and exalted sense are not half so useful as common sense. Pope.
